## Seven Seas Renew

Yvonne E. White Collection™

**\$175.00**

The vessel for this candle is hand carved from reclaimed wood found on the shores of the Southeast Asian islands.

No two vessels are alike and we fill them with a 100% coconut wax from the Rainforest. As the candle burns, it becomes completely clear. And eventually you'll see glimmers of blue crystals shimmering at the bottom, which represent the seven seas.

The fragrance is from our ZEN family. It will refresh your spirit and you will feel as if the ocean has been brought to you. Handcrafted in the U.S.A.

A double wick candle  
Estimated Burn Time: 100+ hours

## Rain Forest Scentsations

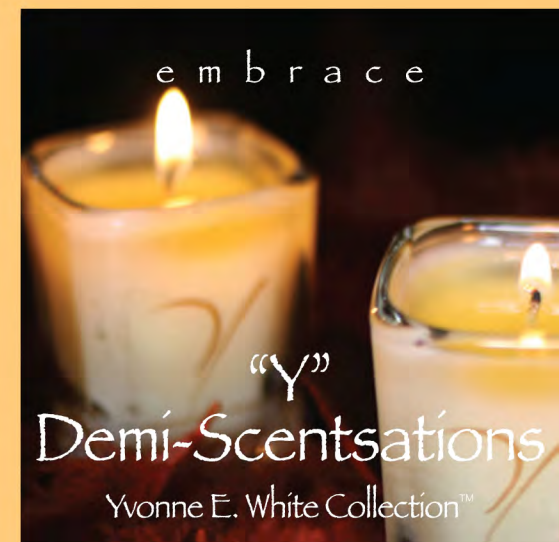

Yvonne E. White Collection™

**\$70.00**

**Crave, Temple, Kharmalized & Soul**  
The Scentsation Collection has four families of blends.  
**Core** - Rich, from the earth...woods, roots, and minerals.  
**Hearth** - Comfort elements...Smell the aromas coming from the kitchen (spices, butter, and vanilla).  
**Lush** - We searched the rainforest for the most exotic fruits, floras, and leaves.  
**Zen** - Calming teas and herbs to balance your personal surroundings.

A limited number of our signature scents, from the Scentsation Line are infused with coconut wax, instead of soy wax and will offer a longer burn time and cleaner burn. Each vessel is covered with our signature lid to extinguish your flame. An artisan has painted each lid, so no two are alike. Handcrafted in the U.S.A.

Estimated Burn Time: 80+ hours

## "Y" Demi-Scentsations

Yvonne E. White Collection™

**\$25.00**

**"Y" Signature Silver Lining Blend**  
A limited number of our signature scents, from the Scentsation Line are infused with coconut wax, instead of soy wax. These limited Scentsations, will offer a longer burn time and cleaner burn. Handcrafted in the U.S.A.

Estimated Burn Time: 8+ hours

## Iron Crème Brûlée

Yvonne E. White Collection™

**\$350.00**

The fragrance and color are inspired by Yvonne's favorite dessert, the delicious classic, Crème Brûlée. Yvonne created a way for you to enjoy this decadent dessert and it's intoxicating aroma without adding one calorie.

This ultra rustic candle is created from a medley of scented waxes that have been hand poured into a hand cast metal pot. Handcrafted in the U.S.A.

Estimated Burn Time: 300+ hours

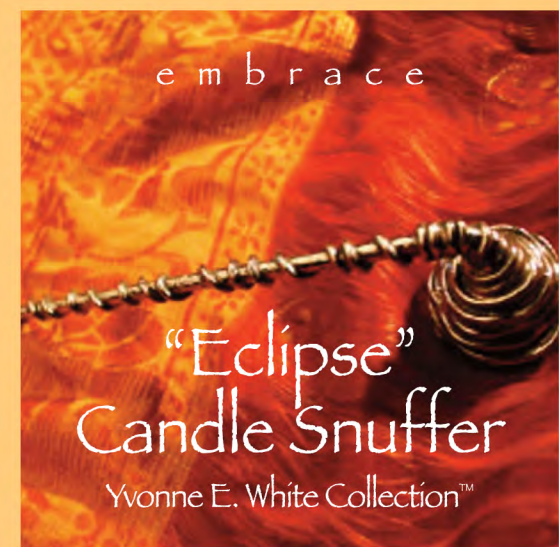

## Celebrate & Beam

Yvonne E. White Collection™

**\$70.00**

While making a toast, imagine the intoxicating aroma of champagne grapes. Celebrate & Beam is a "low fragrant count" candle; for those who prefer a subtle sensory experience. Perfect for entertaining during dining, as it will not interfere with the aroma of food. Representing effervescent bubbles, Yvonne has individually placed sparkling nuggets into each bed of 100% Coconut wax, which is imported from the Rainforest. The nuggets will gently float down as the wax melts. These unique gemstones are ruled by the Moon and are associated with new beginnings, truth and strength when moving into a new direction. They are often used for good fortune, protection after dark, and to bring clarity. Handcrafted in the U.S.A.

Estimated Burn Time: 60+ hours

## "Eclipse" Candle Snuffer

Yvonne E. White Collection™

**\$80.00**

This custom designed pewter snuffer for The Yvonne E. White Collection has been created to assist you in caring for your candle investments and lengthening their lives. Snuffer Tip: To extend the life of your candles, we suggest that you never blow out the flame because it may cause the wick to bend into the wax or the wax may splash. Instead we advise using a snuffer to keep the wick upright for easy access for your next burn. Handcrafted in the U.S.A.
